

### SLT Pallet High Lifters

รถยกกลากพาเลท แบบยกสูง

**Heavy duty pump design, max load capacity 1000kg, lifting height from 85mm to 800mm with full load for ideal work positioning.**

Scissor lift pallet truck design to load and unload conveyors, feed presses, or any applications requiring moving and positioning pallets or containers of materials.

Model รุ่น		SLT10N	SLT10W
Capacity น้ำหนักบรรทุก	kg	1000	
Overall Forks Width ความกว้างงายกทั้งหมด	mm	540	680
Fork Length ความยาวงายก	mm	1170	
Fork Width ความกว้างงายก	mm	160 x 50	
Min. Fork Height ความสูงขั้นต่ำงายก	mm	85	
Max. Fork Height ความสูงสูงสุดงายก	mm	800	
Steering Wheel ล้อบังคับเลี้ยว	mm	Ø 200 x 50	
Load Wheel ล้อบรรทุกน้ำหนัก	mm	Ø 78x 60	
Net Weight น้ำหนักสุทธิ	kg	127	138

- New generation pallet high lifter features a heavy duty pump design.
- 3 stage, telescopic hydraulic cylinder ensures minimum effort and maximum output even when lifting heavy loads.
- Ideal for use as a hand pallet truck and lift table.
- Conforms to European Standards En 1757-4.

Ergonomically designed handle with comfortable rubber grip allows optimised safety as well as comfort. Three position, operational handle lever for lifting, transporting and lowering purposes.

Equipped with quick lift function doubles the lift speed for loads lighter than 200kg.

With pressure relief valve and overload valve to prevent pump and load damage when loads exceeds weight limits.

The enclosed fork tips and reinforced fork frames ensures long service life.

Three stage pistons design minimises the height of the truck when it is lowered, and increases the efficiency when lifting the truck.

**Can only be moved when lifted up to height of maximum 400mm, in lower position than 400mm, it is as easy to move as a pallet truck. Above 400mm the truck is automatically locked by triggering the supports at both side of the steering wheel.**
