FPS15C

FPS15C Economic Ride-on Electric Stacker

FPS15C is a ride-on economic electric stacker that is suitable for horizontal and short distance cargo transpotation. FPS15C is a combination of walking and standing stacker, load capacity up to 1500kg. The stacker is powerful, reliable, easy installation and easy maintenance. It is suitable for loading and unloading goods in factories, warehouses, supermarkets and other places.

Ergonomic intelligent tiller

The ergonomic tiller can be easily operated, optimize the comfort of operators. All the switch buttons are integrated in the humanized touch position for easy operation. (integrated pin-code access, hour meter, power display, fault code display, turtle speed function)

Built-in charger

The bulit-in charger gives higher autonomy during the application.

Stability caster

The stability caster can be adjusted conveniently without lifting the truck.

Emergency power off switch

The emergency power-off switch ensures the safety of driving.

Easily disassembled

The solid chassis with 8mm protective apron can effectively protect the body and internal parts from external mechanical impact.

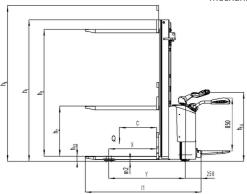

Function application

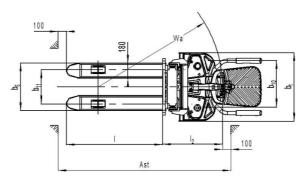

Foldable platform

safer operation.

It has good shock absorption effect, comfortable operation and not easy to fatigue. The arm guard can be rotated for

The whole vehicle system adopts analog circuit control, which eliminates redundant and fancy functions and strengthens the necessary safety functions. Besides, it mainly focuses on the main action functions. The fault point is lowered, the circuit is simplified and the maintenance is
